

# GRISPE PLUS

VALORISATION OF KNOWLEDGE  
FOR SPECIFIC PROFILED STEEL SHEETS

## [Content introduction module 2](#)

- Formula to find a bending capacity of a profile sheeting in span
- Formula to find a compression capacity of a profile sheeting at an end and intermediate support
- Formula to find an interaction bending/support reaction capacity of a profile sheeting at an intermediate support
- Formula to find the shear resistance of a profile sheeting
- Design of liner tray
- Design of perforated sheet
- Case of deflection
- Cases not treated in the GRISPE PLUS project
- Bibliography
